

Essentials

BY welonda

Meet our Essentials

Chairs, wash units, trolleys, academy accessories, work stools
& child seats. The Essentials are functional and versatile, and
have been designed to suit all salon concepts!

Chairs

Do you cut and wash in the same area or do you have separate zones for cutting and washing? The Essentials offer suitable chairs for both situations. Use colour to put a personal stamp on your interior! Welonda Fabrics and Welonda seat supports offer countless possibilities!

HEADREST

Slim

A unique styling chair with a continuous seat design, black seat support (also available on wheels and with central brake), relatively low weight and generous manoeuvring space all around! The Slim has been shown with upholstery 413 Buffalo Marone.

Vivi and Violet

Cutting, washing, colouring and styling is not a problem for these stunners! This seat design with tilting backrest is great in combination with our Delta wash units. Both versions of the chair with tilting backrest and star base on wheels perfectly match the Welondamat 3000 wash column, with the upholstered armrests of the Violet offering extra comfort during long treatments! The Vivi has been shown with upholstery 0901 Socodilo Country Mocca and the Violet has been shown in colour 0777 Plata Palisander.

Mr. Mo

Do you have a (separate) cutting area for men and women, and do you want harmony in your salon? Then the Mr. Mo styling chair and barber's chair offer the ultimate solution! The Mr. Mo has been shown with upholstery 445 Buffalo Dark Chocolat.

Straight

An extremely comfortable seating experience guaranteed thanks to the sleek design of the Straight! Whether you are cutting, washing, colouring or styling, this spacious bucket seat will always offer your customers an ultimate moment of relaxation! The optional adjustable backrest means this chair is also ideal in combination with the Move & Welondamat 3000 wash columns! The Straight has been shown with upholstery 0779 Plata Rodeo.

Wash units

Do you prefer a separate washing zone or would you rather wash and cut in the same area? The Essentials offer suitable wash units for both situations. You determine the look! Select a black or white ceramic wash basin with single-lever mixer tap and combine it with a satin white, silver or metallic black lacquered metal frame. Check whether you want pipes to be connected out of sight (through the bottom) or in open view (via the side), and complete your product by selecting one or more upholstery colours from our Welonda collection!

TILTING

ROTATING

ROTATING

Delta Violet

The light, tilting wash basin, tilting backrest and upholstered armrests guarantee a pleasant lying posture! Require even more comfort? Then equip your wash unit with a separate footrest and neck rubber! The Delta Violet has been shown with a satin white frame and upholstery 1883 Vintage Smoke.

Delta Vivi

The Delta Vivi, with its light, tilting wash basin and tilting backrest, is excellent when placed in a row of chairs. Add flair to your washing zone by mixing frames and/or upholstery colours! The silver Delta Vivi has been shown with upholstery 408 Buffalo Smoke. The Delta Vivi in metallic black has been shown in 0901 Socodilo Country Mocca.

Welondamat 3000

The Welondamat 3000 as focal point! Thanks to its rotating basin and generous manoeuvring space, this wash column can be used for several cutting spots. Opt for mobile styling chairs with adjustable or tilting backrest for a pleasant lying posture when washing!

Move

The flexible Move can be easily moved around your salon! If placed centrally, this wash column can be moved to various chairs, thus guaranteeing the comfort of your customers. Select chairs with a tilting or adjustable backrest to ensure the perfect lying posture for your customers.

Trolleys and Academy accessories

Our mobile trolleys mean your salon accessories will always be close to hand! The Essentials offer various possibilities: with or without drawers and doors, or accompanied by a practical Colour Trolley for dye treatments.

Academy

Mobile and very easy to move; two-sided and made from solid stainless steel: that makes the Academy styling unit ideal for hairstyling colleges. The folding worktops feature an integrated hairdryer holder and the styling unit can be equipped with power supply if necessary. The four wheels can be locked in place.

Favorite

One of the very best trolleys. Available in a chrome frame with side panels made from shiny black synthetic or mirrored panels. The trolley has six black synthetic trays, a chrome hairdryer holder and an accompanying liquid container. If necessary, the trolley can be upgraded with a matching control mirror and mirror holder.

Colour Trolley

Do you dye a lot of hair? Then the practical Colour Trolley is exactly what you need. With a worktop measuring 40 x 40 cm, the Colour Trolley offers enough space for gloves, dye containers and hair films. Extra storage space can be created by hanging containers from the upright section of the worktop. The stainless steel worktop has open edges and is very easy to clean!

Cadillac

The Cadillac helps you to create a stylish and personal mobile work station. This trolley has a stainless steel frame and top cover, which offers protection against hot styling or curling tongs. The Cadillac is also equipped with five matt-black synthetic trays. If necessary, the trolley is also available with a door. An inspection mirror and accompanying bracket are available as options.

Work stools and child seats

Do you prefer to cut hair on a work stool with or without backrest, or would you rather sit while supporting the front of your body? The Essentials offer various work stools that cater for all preferences. All our stools are mobile, height-adjustable and available in all colours in the Welonda Fabrics collection (except Plop).

Cutting a child's hair becomes even more fun with our child seats. Styling chairs are normally too big for your youngest customers, which means they are not always at the correct cutting height. To resolve this problem, we offer various child seats, which feature a protective flap (to protect your chair's upholstery) and can be upholstered in any colour from our collection. Children have difficulty sitting still. Never leave children sitting on our child seats unsupervised!

Plop

Do you want the front of your body to be supported when you work? Then try the Plop work stool! This work stool is only available with black or white upholstery.

Rodeo & Lady Jockey

Is a good seating posture also important to you? Then please allow us to recommend our Rodeo or Lady Jockey (slightly smaller version). The ergonomic saddle on these stools, as well as the adjustable height, means you can always work with a good yet relaxed posture. The Rodeo has been shown with upholstery 412 Buffalo Sherry and the Lady Jockey has been shown with upholstery 411 Buffalo Kirsche.

Saddle Bike

The Saddle bike, which is shown with upholstery 413 Buffalo Marone, has a comfortable seat that is based on a bicycle seat.

Happy

The Happy's round backless seat and flexible working possibilities mean you can sit on it from any position and adjust the height accordingly! The Happy has been shown with upholstery 421 Buffalo Kirsch Rot.

Reception chair

The Reception chair has a height-adjustable backrest. Do you want a high seat as well as foot support? Then add a foot ring to the Reception Chair, which is shown here with upholstery 445 Buffalo Dark Chocolat!

7214

This stool, which is shown with upholstery 421 Buffalo Kirsch Rot, has a round seat and a backrest for extra support.

1810

1889

7181

1810

This child seat can be used from two sides and can be easily adapted to suit your smallest customers. The protective flap means children's shoes will no longer damage or dirty your chair.

1889

Our child cushion can be used for slightly older children. This cushion, which features a protective flap, can be placed between the armrests. The cushion is barely noticeable if it features the same upholstery as your chair; thus creating harmony with its surroundings.

7181

This child seat can also be placed on the chair's armrests and features a protective flap. Create harmony by matching the upholstery of the chair with that of the child seat. The chairs & child seats have been shown with upholstery 0779 Plata Rodeo.
